

PROPERTIES

GLUE READY TO USE, BONDING PRIMER FOR CONCRETE SUBSTRATE.

- Polyvinyl Alcohol dispersion
- Strong adherence

SURFACE PREPARATION

- The supports must be proper, dry, clean, hard and cohesive.
- Applications on CONCRETE

HOW TO USE

- Paint roller, spraying machine
- Do not apply under 5°C or at humidity higher than 65%HR
- Clean the equipment with water.

TECHNICAL DATA

- **Aspect** : Colorless liquid
- **Density** : 1.005 +- 0.05
- **Usage** : 200 -300 g/m2 . Very porous substrates require double gluing
- **Drying Time** : 1 - 4 hours at 20°C and normal humidity
- **Shelf Life** : 6 months in original, unopened packaging and stored away frost and high heat
- **Packaging** : Bucket of 15 Kg / Pallet of 33 buckets (495 kg)
